**STATEMENT OF QUALIFICATIONS**
Anacapa Micro Products, Inc. (Anacapa), a HUBZone Certified Small Business IT products reseller and integrator headquartered in Oxnard, California, offers the U.S. Government and prime contractors IT products and services with exceptionally low-risk delivery capability. We have a strong track record of on-time fulfillment and customer satisfaction over two decades.

The Anacapa team provides a wide breadth of IT products and vendors. Our offerings include inventory from global commercial off-the-shelf (COTS) distributors in 14 continental United States (CONUS) warehouses to ensure high levels of product selection and availability.

Anacapa taps original equipment manufacturers’ (OEMs’) technological expertise to support forward-looking product selection and technology refreshment.

We enable custom engineering solutions to mission-critical and scientific research projects, and consult with agencies on their ongoing efforts to develop existing applications.

Anacapa maintains excellent relationships with key OEMs. As a result, we are Authorized Resellers entitled to deeply discounted pricing, which we provide to our customers as an added benefit. Our experience and skill sets include design and fulfillment of enterprise server, storage and A/V solutions.
